

## OFFSHORE TECHNOLOGY CONFERENCE 2018

30 April-3 May 2018 // Houston, Texas, USA // NRG Park  
2018.otcnet.org

GOING THE DISTANCE  
CELEBRATING 50 YEARS OF OTC

### Attend the premier, global event in offshore energy

The Offshore Technology Conference (OTC) is where energy professionals meet to exchange ideas and opinions to advance scientific and technical knowledge for offshore resources and environmental matters. OTC is the largest global event for the oil and gas sector featuring 2,000+ exhibitors and attendees from more than 100 countries. Details at [go.otc.org/IBPprogram](http://go.otc.org/IBPprogram).

OTC is sponsored by 13 non-profit organisations in the energy sector, who work co-operatively to develop the technical programme. Revenue from OTC directly benefits the membership of these societies.

### Celebrate 50 years with us

At OTC 2018, we will begin our celebration of 50 years of OTC. This celebration is a recognition of our commitment to the people and companies who have helped us to reach this milestone. Special events are planned to commemorate this occasion, including an opening ceremony and panel of energy luminaries, who will be discussing the offshore technology revolution of the previous 50 years, and what innovations we can expect for the next 50.

### Learn technical information that you can apply back at the office

OTC offers key insights by global experts on technological advances, safety and environmentally focused solutions, and economic and regulatory impacts. Here are highlights of the 2018 program:

Faster Deployment of New Technologies: Solutions to create project-ready technologies which meet current industry challenges.

Cost Reducing Tools and Techniques: Ways to decrease costs and improve overall value, while maintaining high standards for safety, operability, and reliability.

Integrating to Innovate: How advanced software, nanotechnology, and the digital revolution are integrating disciplines and triggering an historic transformation in the offshore energy sector.

Meeting Global Demand: Meeting the energy needs of fast-growing economies, while reducing carbon emissions and considering the impact of digital technology.

Updates on World-Class Projects: The latest on landmark projects which have resulted in breakthrough technologies in a low oil price environment.

### Hear executive-level and government official speakers who you might not encounter anywhere else

Working with the US Department of Commerce, OTC organizes industry breakfasts which offer expert views on doing business in emerging geographic areas of interest for the oil and gas industry.

### Acknowledge industry accomplishments and support a worthy cause

The Distinguished Achievement Awards Luncheon recognizes the OTC Distinguished Achievement Award recipients, raises funds for a worthy cause.

### See ground-breaking innovations and meet the leading providers of products and services

Whatever you are looking for in offshore energy, you will find it within the OTC Exhibits. The exhibition will be held in multiple indoor and outdoor locations: NRG Centre, NRG Arena, OTC Pavilion, and OTC Parkway.

### OTC and the International Buyer Program

OTC is a proud participant of the US Department of Commerce's International Buyer Program (IBP). Through the US Department of Commerce's network of offices in US Embassies and Consulates worldwide, the IBP recruits pre-screened foreign buyer delegations and brings them to selected tradeshows, connecting US companies with international buyers. US Department of Commerce's trade specialists located in your local Embassy or Consulate can assist you with show registration, help you locate the products or services you want to purchase, and assist in setting up meetings with US businesses. Find your local Embassy or Consulate through [www.buyusa.gov](http://www.buyusa.gov) and join an International Buyer Program delegation to OTC.
