Offshore Technology Conference Exhibitor eNewsletter

### Celebrating 50 Years of OTC

The first Offshore Technology Conference was held **19 - 21 May 1969** in Houston, Texas, and was successful beyond expectations with 2,797 registrants, 112 papers presented, and 368 exhibit spaces. The Offshore Technology Conference has been held in Houston each year since, with significant growth in size and worldwide participation.

OTC 2018 will begin our celebration of 50 years of OTC. This celebration, culminating in 2019, is a recognition of our deep commitment to the people and companies who have helped us to reach this milestone. We are grateful to the offshore energy industry, our exhibitors, and our attendees as we all uncover new techniques, technologies, and connections.
